

# Forimo Analgesics

**NO PAIN**  
KNOW PAIN RELIEF

# Forimo 600

Ibuprofen 600 mg

## Works Fast to stop Pain Where it Starts

- Most effective alternative for low dose & low potential NSAIDs
- Unbeatable strength for day & night pain relief
- High tolerability with low GI toxicity

RX code:70810

Forimo 600 for moderate to severe pain relief

## Comparison of ibuprofen 600 mg vs ibuprofen 400 mg\*

### Ibuprofen 600 mg

- Higher peak effect and superior pain relief (67%) due to NNT 1.9
- Faster onset of effect
- Longer duration up to 12 hours

### Ibuprofen 400 mg

- Low peak effect and weak pain relief (38%) due to NNT 4.5
- Delayed onset of effect
- Duration of effect up to 6 hours

# Forimo *PLUS*

Acetaminophen 500/ Ibuprofen 200

- Free of Caffeine, Codeine & Aspirin adverse effects
- Long lasting effect provides up to 8 hours
- Strong with multi symptom pain relief
- Fast onset of action

Dual action  
pain relief

RX code:69880

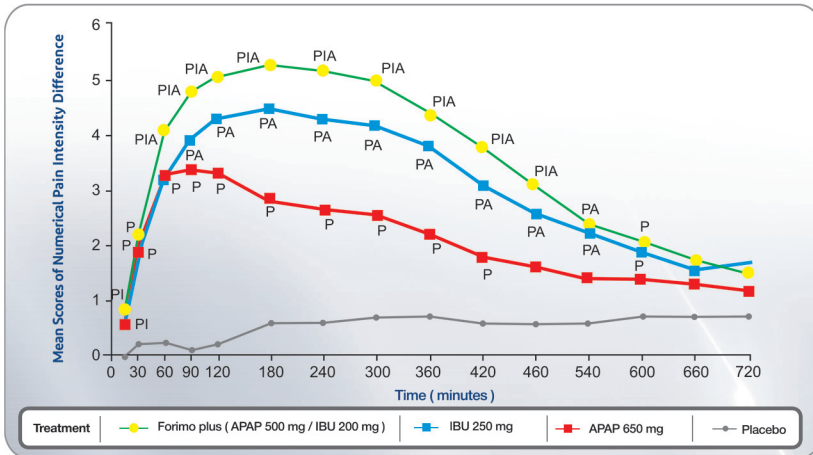

**Forimo plus** dual action is an exclusive pain-fighting formula\*

**Two distinct mechanisms of action to maximize efficacy**

**Acetaminophen**  
Blocks pain signals

**Ibuprofen**  
Targets pain at the source

**P** Significantly superior vs placebo (P<0.05)    **I** Significantly superior vs IBU 250 mg (P<0.05)  
**A** Significantly superior vs APAP 650 mg (P<0.05)

**DUAL ACTION** provided significantly greater analgesic efficacy than either ibuprofen 250 mg or acetaminophen 650 mg alone.

**Forimo plus** has a favorable safety profile due to:

- LESS IBUPROFEN
- LESS ACETAMINOPHEN
- Free of Aspirin
- Free of Codeine
- Free of Caffeine

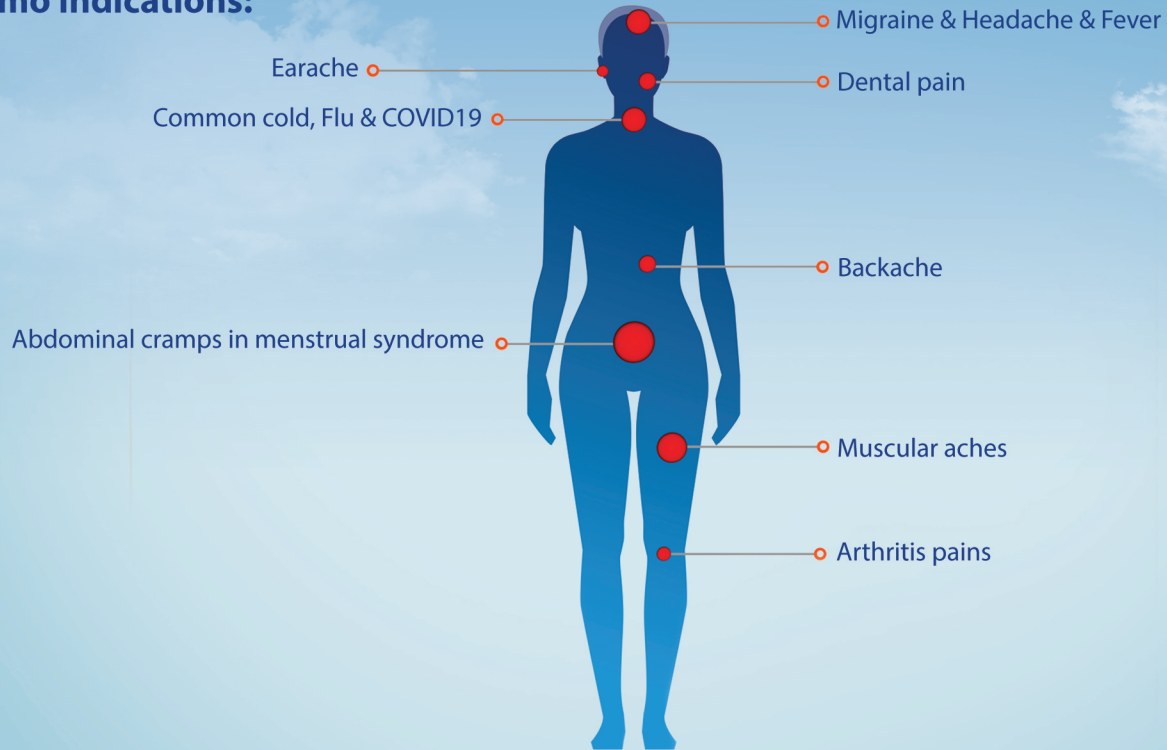

**Superior pain relief vs monotherapy**
