RX code: 70990

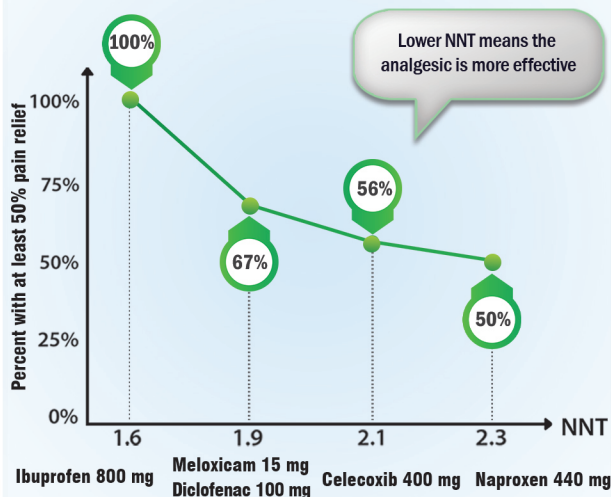

Forimo[®]

Ibuprofen **ER 800**

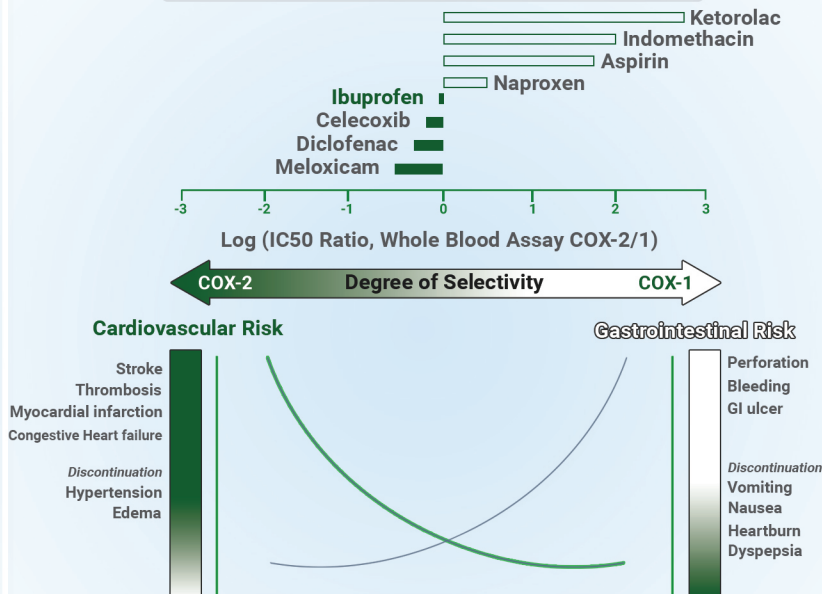

For extreme severe pain relief

Compare, pain relief based on NNT

NSAIDs, Cox selectivity, and Risk Profile

The ibuprofen 1600 mg ER treatment results in a better patient responses with good to excellent rate and strong support in chronic pain relief compared with other NSAIDs, based on oxford league table.*

The ibuprofen balanced selectivity mechanisms of action between cox-1 & cox-2 helps provide its balanced and unique safety profile.**
